

COVID19 PPE and Spevco Event Operators

First and foremost, Spevco and its employees intend to follow CDC guidelines and any and all state and local ordinances related to COVID-19 while supplying event services to our clients. Safety is always our top priority.

Spevco Personnel

- Spevco Drivers and Event Operators will be supplied with N95 masks, gloves, and cleaning/sanitizing products for their own use while traveling and while on the event site.
- Only Spevco personnel is allowed inside our tractors and trucks. This protects our drivers/operators and our clients and event visitors.
- If Spevco personnel require a rental car, only Spevco personnel will be permitted inside of that vehicle.
- Spevco personnel will not be permitted to share hotel rooms with any other people.
- Spevco personnel will be allowed to fly with any PPE required by airports and/or airlines. N95 masks and gloves are highly recommended.

Events

- Spevco personnel will follow all state and local ordinances related to COVID-19 group/gathering sizes and social distancing, as these regulations may vary from state-to-state and city-to-city.
- Spevco will take direction from, and collaborate with its clients for event specifics such as number of guests invited and permitted in the event space, number of events, etc. However, Spevco can help to determine what state and local regulations require prior to the event dates.
- Our clients will dictate what testing (temperature, etc) and/or PPE will be required when their own employees and guests are on or around the event vehicle, or in the general event space. However, Spevco recommends that all guests wear masks and gloves to protect themselves and each other.
- Spevco personnel will be instructed and available to clean and sanitize all event spaces and relevant equipment prior to every event group/session.
